

**REMARKS/ARGUMENTS**

Claims 1-21 are pending in this case. Claims 1-19 have been rejected. Claim 3 has been cancelled by this amendment. Dependent claim 4 has also been amended for a minor editorial change. Dependant claims 20 and 21 have been added to show additional detail. No new matter has been added.

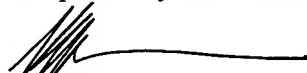

The Examiner objected to the drawings under 37 C.F.R. § 1.83(a) for not showing an adjustable seat, as described in claim 3. Claim 3 has been canceled to remove reference to the feature of the optional adjustable seat.

The Examiner has rejected claims 1, 2, and 4-19 under 35 U.S.C. §102(b) as being anticipated by Tseng. The Applicant respectfully invites the Examiner's consideration of the Appendix, which includes an Affidavit under 37 C.F.R. § 1.131 showing invention prior to application by Tseng.

The Examiner had rejected claim 3 under 35 U.S.C. § 103(a) as being unpatentable over Tseng for obviousness. Because claim 3 has been cancelled, this rejection has been rendered moot.

All claims now in the application, namely claims 1, 2, and 4-21, are deemed patentably distinguishable over the art applied and noted, but not relied upon. Accordingly, Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

M. Bruce Harper
